## The Brady Brief: The Stimulus - Working for You

Dear Friend,

Recently we celebrated the one year anniversary of the American Recovery and Reinvestment Act. Also known as the stimulus package, the provisions in this act have contributed to the growing of our economy, worked to create more jobs across the nation, and funded vital investments for our future. I wanted to give you an update regarding the progress made in its first year and tell you about the investments being made in the First District.

For a more detailed look at the positive benefits of the stimulus in our community, please visit my [website](#).

Within the American Recovery and Reinvestment Act, over \$487 million was allocated for use in our district. These funds are being used to create jobs and fund important projects across the district, such as:

- Expanded access to primary health care centers and services
- Supplemental income for teachers, family counselors, and social workers
- Research funding for HIV, cancer, and other diseases
- Rent and utility assistance to households to help with homelessness prevention
- Improvements to SEPTA's rail and transit systems

The stimulus funds have bettered our district and are largely responsible for saving our country from an economic meltdown. As more provisions in the American Recovery and Reinvestment Act take effect, Americans will continue to see and feel the benefits of this bill. I look forward to witnessing the growth and investment in our community, and I will do all in my power to ensure these funds are used to their full extent.

If you have any questions regarding this, or any other issue, do not hesitate to contact any of my offices.

Sincerely,

Robert Brady  
Member of Congress
